## Your local health and safety partner

Workplace Safety North (WSN) is one of four provincial not-for-profit health and safety associations, and the only one based in the north. A leading provider of sector-specific health and safety services, WSN offers expert advice, training, information, and free resources.

WSN is recognized by the Ministry of Labour, Training and Skills Development, the Ministry of Colleges and Universities, the Ontario Waste Water Certification Office, and the Workplace Safety and Insurance Board, as a designated training and service provider.
