Call for Papers: 2027 Mining Health and Safety Conference

Submissions open until Wednesday, January 27, 2027

Workplace Safety North invites proposals for technical sessions to take place on Thursday, April 22, 2027, in Sudbury, Ontario. Presentations will be a maximum of 30 minutes, including time for audience questions.

Themed 'Safe Below, Sound Above: Shaping the Future of Mining,' the 29th annual Mining Health and Safety Conference expects to welcome more than 300 in-person attendees from the global mining industry to share knowledge of sector-specific hazards, explore programs and innovations, and network with industry professionals.

Key areas of focus for presentations

- Safety leadership, workplace culture, and workforce readiness
- High-risk hazard identification, risk management, and prevention
- Workplace well-being, psychological health and safety, and occupational illness prevention
- Emergency preparedness and response
- Research, emerging technologies, and digital innovation in mine safety
- Industry collaboration, case studies, and lessons learned
- Safety systems, the internal responsibility system (IRS), and regulatory developments

Please note: Priority will be given to submissions that address the health and safety themes outlined above, particularly those featuring Canadian-based research and operations. Sales-oriented or promotional content will not be considered.

If you are interested in presenting a paper at the Mining Health and Safety Conference, **please complete the 'Call for Papers' form** by **Wednesday, January 27**.
