

WSN STRATEGY 2020

OUR VISION:

Every worker home safe and healthy.

GOAL 1: TARGET AREAS OF GREATEST NEED

VULNERABILITY IN THE WORKPLACE

- Small Business
- Underserved Northern Ontario Workplaces
- First Nations
- New, Young, Aging Workers

HIGHEST HAZARDS

Sector Priorities

- Forest Products
- Mining
- Mine Rescue

System Priorities

- Falls from Heights
- Occupational Disease
- Mental Health

GOAL 2: ENHANCE SERVICE DELIVERY

WE ARE PLEASED TO SHARE THE WORKPLACE SAFETY NORTH 2020 STRATEGIC PLAN

Our strategic plan sets out a roadmap for changing and saving lives, workplace by workplace, community by community, day in and day out.

By 2020, Workplace Safety North will be recognized as the voice for workplace health and safety in northern Ontario and we will be sought out locally and internationally as a leading safety authority in forest products, mining and mine rescue. With funding from more diverse revenue sources, we will have a sustainable platform for expanded delivery of our mandate. Although growing, our programs and services will be fully focused on relevance and value to our core sectors and northern communities. Two goals will guide all that we do: targeting the areas of greatest need, and enhancing service delivery.

We look forward to working with you to be the best in health and safety.

Paul Andre
Acting President and CEO
Workplace Safety North

Dwight Harper
Board Chair
Sudbury Integrated Nickel Operations
