

Dynamics 365 Technical Specialist

- **Ontario (Northern Ontario preferred)**

As part of a high-performance team, you will be responsible for the development, maintenance, and deployment of software enhancements for WSN's Dynamics 365 CRM platform. You will work with team members to design, test and implement new operation-level MS Dynamics 365 CRM software solutions, as well as maintain existing solutions that are critical to WSN's operations.

In addition to recommending enhancements and implementing regular feature updates to WSN's Dynamics 365 platform, you will provide system support to users within the organization as Dynamics 365 CRM subject matter expert. Your ability to design, test and implement software that is highly scalable and highly available, is complemented by your demonstrated ability to build rapport and maintain relationships with internal and external stakeholders.

You possess advanced familiarity and knowledge of MS Dynamics 365 CRM, Great Plains Accounts Receivable, Traincaster, Learning Management Systems and Web Portal. You have obtained a university degree in computer science, or equivalent, which is complemented by a minimum five (5) years of related job experience, including systems knowledge. A minimum three (3) years experience working as a technical consultant/developer in MS Dynamics 365 CRM is required. Advanced knowledge of MS Office and experience using R, Python, Java, and SQL in a business environment is required.

This position provides a challenging career with an attractive benefits package and salary based on qualifications. If you feel you meet our needs and are interested in being a part of a rewarding career in occupational health and safety, please forward your application by **October 15, 2021** to:
