Meet Jay

“Digital Dementia” is an overuse of digital technology resulting in the breakdown of cognitive abilities.

~Manfred Spitzer

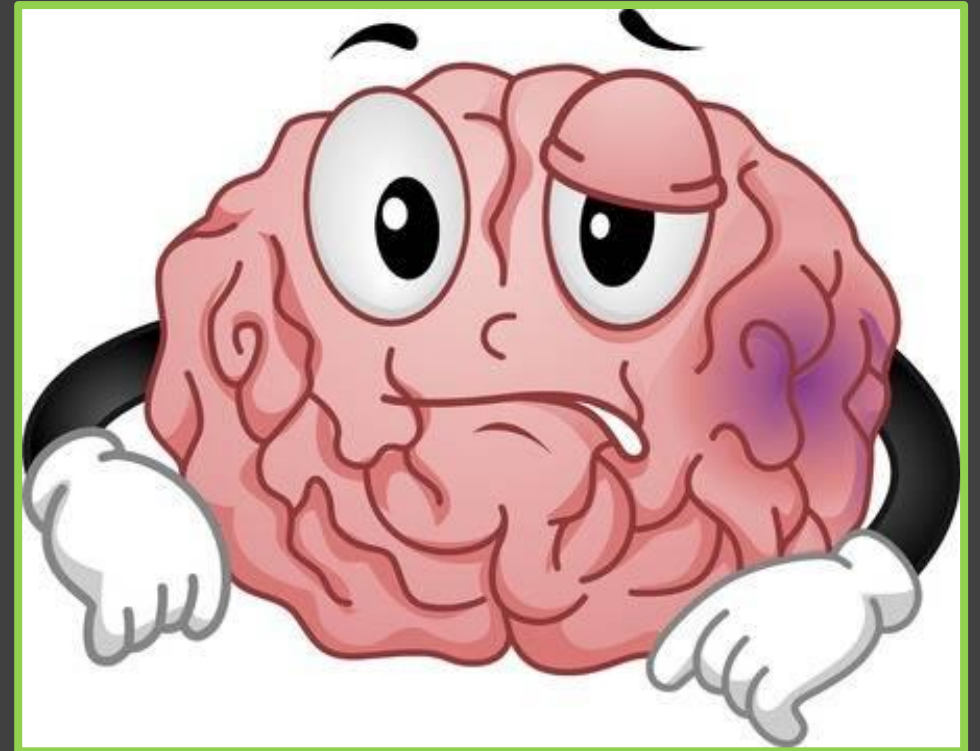

Manfred Spitzer is a German psychiatrist, psychologist, neuroscientist and author

Research also shows a risk of:
Schizophrenia, PTSD,
Depression and Dementia

Due to a reduction in grey matter in the hippocampus

“Mental Illness is a
leading cause of
disability in the
world”

World Health Organization

Don't Lose your Mind Avoid “Digital Dementia”
