At **Workplace Safety North**, we are dedicated to bringing every worker home safe and healthy. We are seeking people who share our passion for health and safety excellence.

Ontario Mine Rescue - Emergency Services Specialist

• Ontario

This position provides emergency preparedness and response assessments of underground and surface mining operations with traditional and non-traditional firms. The role also provides specialized training to surface and underground mining operations, and can provide legislated Ontario Mine Rescue training to underground mines.

The ideal candidate will hold a university degree or equivalent education and experience, as well as train the trainer or adult education training certificate, current Ontario Mine Rescue certifications, Standard First Aid/CPR, breathing apparatus technician level certification, underground common core and Canadian Registered Safety Professional (CRSP) certification, or the ability to attain. This candidate will also have 7 years of related job experience, a minimum of 5 years as an active fire-fighter or industrial/mining emergency responder, as well as additional experience in high angle and confined space rescue, hazardous materials and spill response. The ability to obtain the CRSP designation and a valid driver's license is required.

The work involves frequent exposure to adverse conditions and extensive long duration travel, both nationally and internationally. Frequent and extensive overnight travel (50 to 100 days throughout the year) periodically required to work weekends and holidays. May be required to be away from home for extended periods of 2 to 3 weeks in foreign countries/out of province; camp bunk houses or like settings.

If you feel you meet our needs and are interested in being a part of a rewarding career in the field of health and safety, please forward your application, by **March 1, 2020** to:
